

Testimonials for DataCat

"Territory Studio were excited to be moving into our brand new London offices this year. Our film client projects demand a high level of performance and data from our IT setup and so we knew that wherever we moved would need rock solid reliable and lightning fast data running throughout the building. Not only that, but we needed everything installed quickly. Data cat exceeded our requirements and were a pleasure to work with from start to finish. We hope to work with them again soon." – David Sheldon-Hicks, Founder, Territory Studio

"Thank you for a job well done. DataCat installed all the cabling for our network infrastructure at our new offices including 80 CAT6 network points, mains power sockets and all the necessary trunking. All completed on time with no extra costs – they were very helpful from start to finish." – Adrian Metcalf, IT Manager, translate plus, London. <http://www.translateplus.com>

"I would like to thank you and your colleagues for the job you did installing network cabling and a cabinet in our office. The work was carried out over a weekend and everything was up and running again on Monday morning. DataCat are the gentlemen of cabling!" – Camelia La'fleur, On The House Estate Agents, London. <http://www.onthehouse.co.uk>

"Cabling is not easy in a building like ours where there are not always obvious or simple routes, but DataCat have on several occasions completed jobs with the minimum of hassle!" – Andrew Kingsley, IT Manager, The Place (Contemporary Dance Trust Ltd), London <http://www.theplace.org.uk>

"Thank you for the work carried out in the museum to provide data connectivity throughout the offices and public areas. This is the second time we have contracted you and both times we were pleased with the way that you tackled the difficulties of working in a historic building with minimum disturbance to our visitors. We will certainly use you again if we need data cabling in the future." - Martin Sach, Director London Canal Museum, Camden <http://www.canalmuseum.org.uk>

"When we took a lease on our new offices there was no existing network infrastructure. DataCat understood our requirements and carried out the installation, including repositioning floor boxes and installing a new comms cabinet in a separate room, with the minimum of fuss and within a tight timeframe. Recommended." – Stuart Parkin, Waterson Hicks, international commercial and shipping law firm in the City of London. <http://www.watersonhicks.com>.

"Thanks to all the guys who worked all weekend to install the additions to our network cabling for the new desks. Everything was back up and running by Monday morning and the work was carried out neatly and efficiently." - Lucy Rackham, The Exsurgo Partnership Limited, London <http://www.exsurgogroup.com>

"Great job by DataCat installing fibre optic links between floors in our offices. All planned in conjunction with the building managers and executed according to plan. We were promptly up and running and – just the level of service we were looking for" - James Boyd, Moonfruit, London. www.moonfruit.com

“When we took over another floor in our building extending our data and telephone networks presented quite a challenge, but DataCat worked closely with us, our IT providers and the building contractors to find and implement a solution that ticked all the boxes. They have since helped us with various moves and changes and have always been helpful and reliable.” - Rebecca Watret
Studio Manager, LPK, Global Brand Design Agency, London <http://www.lpk.com>

“That’s better! A cabling company who can deal with all our requirements, from small cabinet swapouts at our centres across London to the complete re-cabling of our head office. DataCat have proved to be reliable and on the both ball technically and in terms of customer service.” – Harry Draycott, Finance Director, Irish Centre Housing, London <http://www.irishcentrehousing.org>

“We have worked with DataCat for a number of years on such diverse projects as installing cabling for voip and internet connectivity in clergy houses across London or a complete restructuring at our head office in Victoria, and have always found them to be a **quick, clean, tidy and** reliable contractor who gets the job done, however tricky.” – Martin How, Head of ICT, Anglican Diocese of London

“We were recommended to use DataCat for changes to our office network by our IT support company, and we found them helpful throughout the process. Their quote was clear and the work was carried out on time at the agreed price.” - Rajen Hindocha, Head of Finance, The Magistrates' Association, London www.magistrates-association.org.uk

“As a growing production company we have several requirements to expand our data and telephone systems over the past few years, and we have repeatedly awarded the work to DataCat who have given us an efficient and helpful service whenever the need has arisen. They are always happy to work around our schedule and their work is of the high standard we require.” – Karl Dawkins, Group IT and Communications Manager, Argonon, London www.argonon.com

“Nice work! All our new office cabling sorted out with the minimum of hassle and all tested and working before we move in. This is the second time DataCat have undertaken substantial projects for us and we know we can trust them to do a great job.” – Richard Baxter, CEO, Builtvisible.com, London.
